[1-3] Fold your **Bell Scarf** in the center, tie it in a knot. This will make your Scarf shorter. (Depending on your chest measurement will determine whether you knot your Scarf closer to the folded end, or you may not need to knot your Scarf at all.) Holding each end of your scarf, place the Knot in the center of your back, bringing the two top ends of your scarf around to the front of you.

[4-6] Tie the two top ends together as snug as possible, but comfortably, and then tie into a Bow. Adjust and fluff your Bow.
